

Plant something
for us this year!

NATIVE PLANT plant sale!

Local fauna & flora exist in an intertwined web — many critters feed exclusively on a narrow range of native plants, and many insects are important pollinators as well as food sources for birds and other animals.

Native plants also have the advantage of having adapted over 1000s of years to local soil types, pests, and climate conditions.

**Saturday,
April 10**

9:00am-1:00pm

Where? New location!!!

Greenville Tec's McAlister Square Campus parking lot at the Antrim Drive entrance (225 South Pleasantburg Dr; then look for the signs).

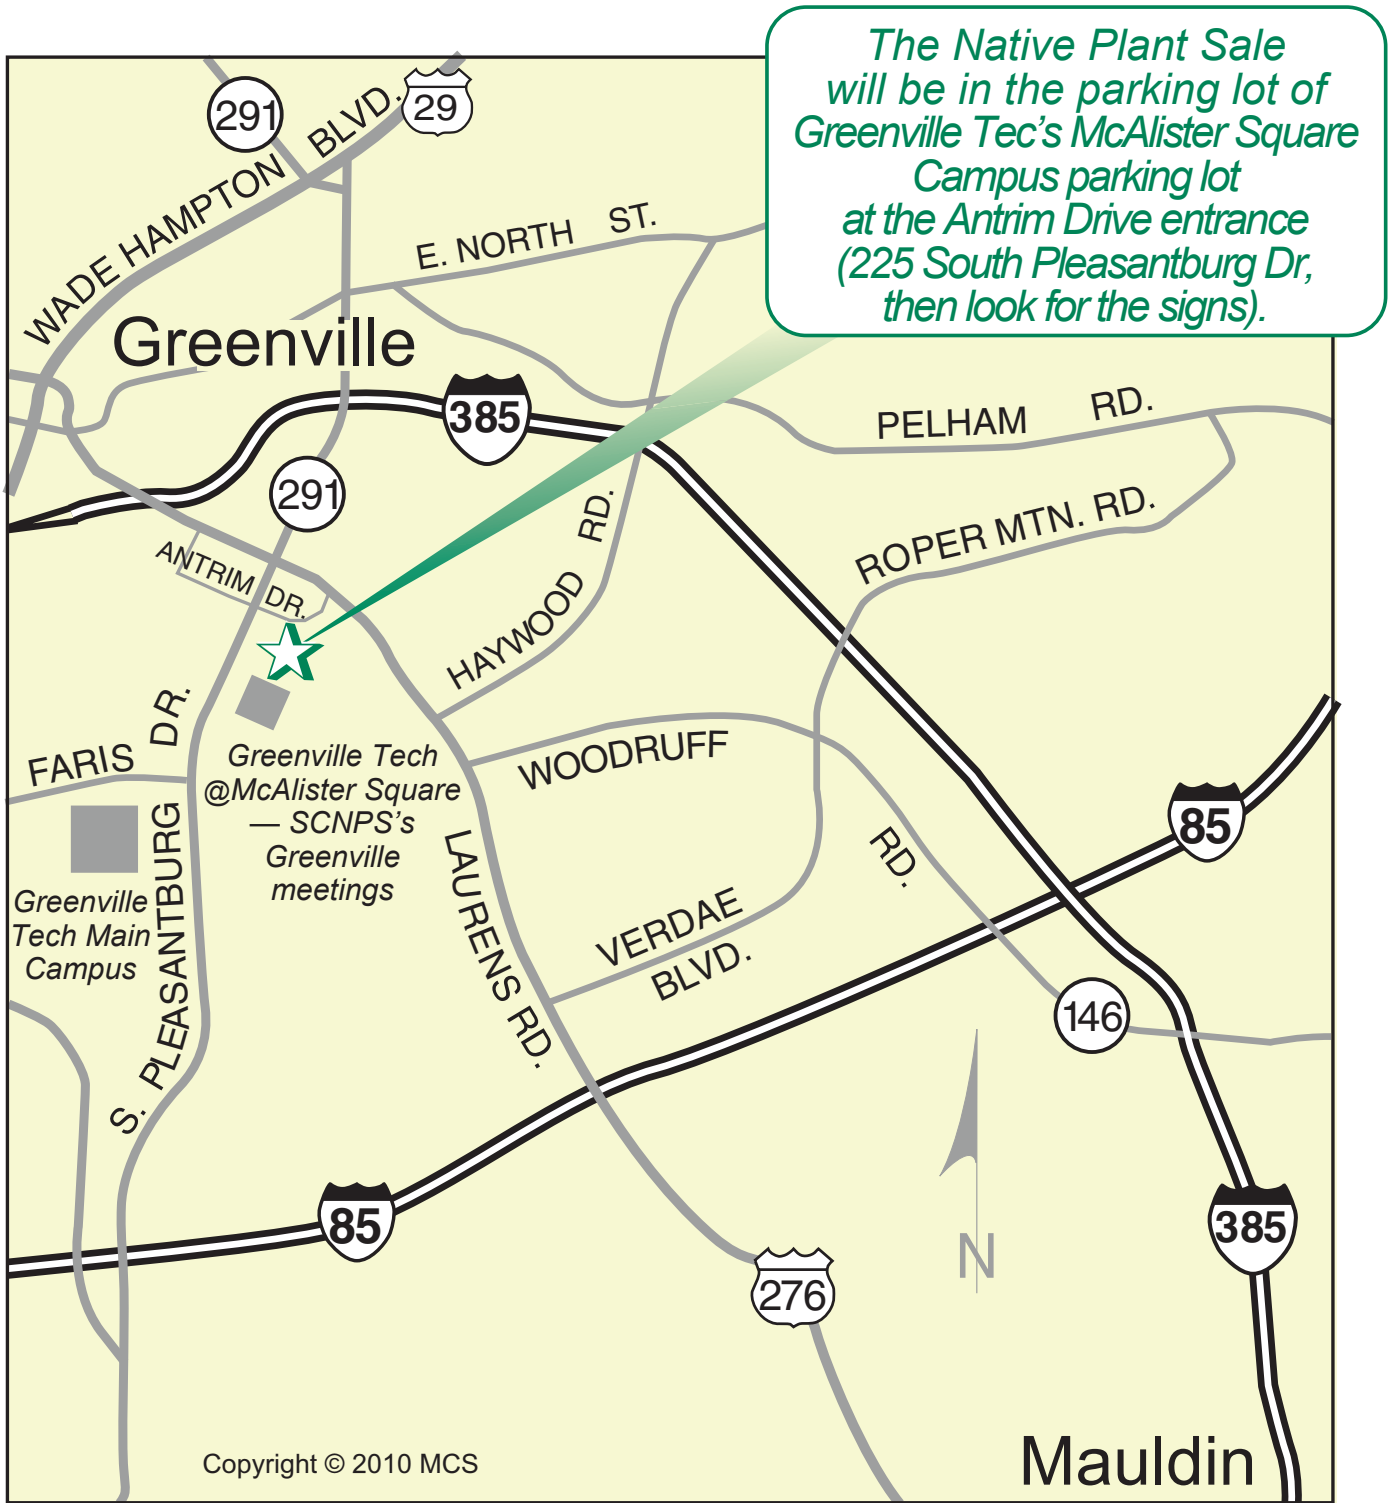

For more information, call 864-288-5590 or visit www.scnps.org

Greenville

The SC Native Plant Society is a non-profit organization committed to the preservation and protection of native plant communities in South Carolina.

Also, at the plant sale, Dr. Jan Haldeman of Erskine College will display examples of — and provide information about — commonly sold non-native species that have become invasive in this area.
